

PSD2Outbound GCO Alert - voeb_exception_backend_timeout

Voeb_exception_backend_timeout

Why do we have this alert?

- This alert will trigger when not receiving any response of the respective Banks within the configured time period.

What does this alert mean?

- This alert is to identify if any request is getting timed out while fetching consent details

Impact to customer

- VOEB will be used as third party service provider to provide list of PSD2 enabled bank consent creation & authorization, if any request is failed with voeb backend timeout error, customer will not be able to create the consent.

Investigation Steps

- We may see, most of the requests are failing due to back end timeout error

log for reference,

Response :

```
{
  "rc" : "1103",
  "message" : "Backend timeout."
}
```

code:"TRVX_009","description":"Backend Timeout from VOB",

- We can Start the analysis by picking up CAID (Credit Application ID) for failures analysis in database.
- Check in Error_info column from Audit_log table.
- Check for the events and call failures.
- As per the prefix identify which event has failed and contact the respective team (Contact the VOEB team if Call to VOEB endpoints fails- refer the contact details as per the link in additional information).
- login to XS2A_COFI_RO_2 via cyberark-
- run the query below to check failed requests

Query

```
select credit_application_id,event_type,code,description,additional_data,created_date_time from
VDB308_OWNER_XS2A_ACCOUNT.audit_log
where
description like '%Backend Timeout%' and
--event_type in ('AS_GET_CONSENT_STATUS_RES','AS_POST_SUBMIT_BANK_DETAILS_RES') and
CREATED_DATE_TIME BETWEEN TO_DATE('01-05-2024 00:00:00','dd-mm-yyyy hh24:mi:ss') AND TO_DATE('29-05-2024 23:59:00','dd-mm-yyyy hh24:mi:ss');
```

Verification Steps

- Run the query below and make sure that no further failures observed with error Backend timeout.

Query

```
select credit_application_id,event_type,code,description,additional_data,created_date_time from
VDB308_OWNER_XS2A_ACCOUNT.audit_log
where
description like '%Backend Timeout%' and
--event_type in ('AS_GET_CONSENT_STATUS_RES','AS_POST_SUBMIT_BANK_DETAILS_RES') and
CREATED_DATE_TIME BETWEEN TO_DATE('01-05-2024 00:00:00','dd-mm-yyyy hh24:mi:ss') AND TO_DATE('29-05-
2024 23:59:00','dd-mm-yyyy hh24:mi:ss');
```
